

RC-2 20G Resilient Channel

Product Number: SFRC2-20G

RC-2 is an economical solution for reducing sound transmission. RC-2 is typically installed perpendicular to wood or steel framing products in walls and ceiling assemblies.

Product Information:

Members manufactured in accordance with
AISI S220 & ASTM C645.

Code & Standards:

Galvanized sheet steel meets or exceeds requirements of ASTM A924 & A1003 G40 min.
(Heavier coatings available by request CP60, CP90).
MSDS & Product Certification Information available at www.cracometals.com.

Product Packaging:

Stock Length: 12' lengths

ASTM & Code Standards:

For installation & storage information refer to ASTM C754.
Refer to the Gypsum Association Fire and Sound Control Manual for STC Ratings.
Refer to UL.com for Fire Rated Assemblies.

Green Benefits & LEED Data:

LEED Credit MR 2 - Construction Waste Management 1-2 Points
LEED Credit MR 4 - Recycled Credit 1-2 Points
LEED Credit MR 5 - Regional Materials 1-2 Points
CRACO products are 100% recyclable
