

**Product Category:** Wall Bridging for Non-Structural Framing  
**Product Name:** SmartFrame® Bridging Schematic

**Assembly Description:**

Wall Bridging is code required and an integral part of any wall framing. It should be installed in nearly all types of wall framing including interior Non-Composite, Non-Structural wall framing and all interior and exterior Structural Wall Framing.

**Assembly Products:**

Steel Stud and Track, 1-1/2" CRC-54 and BridgeSmart Connectors

**Suggested Installation:**

Install CRC at 48" on center.

Attach CRC to each stud securely with BridgeSmart Connectors.

Attach ends of CRC together with SmartFrame CRC Connector.

See BridgeSmart Connector for additional information.
